

**ICC Meeting on Intermittent Pneumatic Compression  
and  
Innovative Inelastic Compression**  
Sept 8, 2013, Boston

<b>Morning</b> N. Morrison	<b>IPC</b>	9:00AM-1:00PM Welcome address from the President of the IUP Conference Welcome and introduction <b>A. Comerota, E. Arkans</b> IPC- a broad spectrum Venous indication MRI findings IPC in leg ulcers Hematological effects Arterial indication Arterial device optimization Lymphatic indication IPC Use in Lymphedema: Physiological Considerations IPC garment construction for lymphatic indications
G. Mosti <b>Chairmen</b> A. Comerota Evi Kalodiki F. Lurie O. Alvarez A. Comerota N. Labropoulos E. Arkans W. Olszewski H. Mayrovitz		
F. Schingale		

Companies explain the specific features of their instruments and new products

**Lunch Break** 1:00-2:00PM

<b>Afternoon</b>	<b>Innovative short stretch material</b>	2:00-4:00 PM
<b>Chairmen</b> H. Partsch G. Mosti J. Macdonald J. Soerensen		<b>G. Mosti, D. Bender</b> Materials, Pressure and Stiffness Experimental effects A novel cohesive compression system Cohesive bandages and IPC in trauma patients Development of Hybrid Compression Self applicable wraps in venous disease Self applicable wraps in lymphoedema Interface pressure and stiffness of a reusable multilayer bandage (Cotton and long stretch bandages).
A.Comerota J. Caprini R. Damstra JP. Benigni, A. Cornu-Thenard, JF Uhl		

Discussion 4:00-5:00PM
