Reviews

Limb volume measurement: from the past methods to optoelectronic technologies, bioimpedance analysis and laser-based devices 392
Cavezzi A., Schingale F., Elio C.

Original articles

Optoelectric volume measurements to demonstrate volume changes in the lower extremities during orthostasis 395
Pannier F., Rabe E.

A new device to measure upper limb circumferences: validity and reliability 401
Devoogdt N., Lemkens H., Geraerts I., Van Nuland I., Flour M., Coremans T., Christiaens M.R., Van Kampen M.

Narrowing of leg veins under compression demonstrated by magnetic resonance imaging (MRI) 408
Partsch H., Mosti G., Mosti F.

3D multislice CT to demonstrate the effects of compression therapy..... 411
Uhl J. F.

Duplex scanning to evaluate the effect of compression on venous reflux..... 416
Mosti G., Partsch H.

Measuring venous pumping function by strain-gauge plethysmography..... 421
Mosti G., Partsch H.

Comparison of three portable instruments to measure compression pressure 426
Mosti G., Partsch H.

Pascal's law and the dynamics of compression therapy: a study on healthy volunteers..... 431
Schuren J., Mohr K.

Medical compression: effects on pulsatile leg blood flow..... 436
Mayrovitz H. N., Macdonald J. M.

Clinical trials needed to evaluate compression therapy in breast cancer related lymphedema (BCRL). Proposals from an expert group 442
Partsch H., Stout N., Forner-Cordero I., Flour M., Moffatt C., Szuba A., Milic D., Szolnoky G., Brorson H., Abel M., Schuren J., Schingale F., Vignes S., Piller N., Döller W.

Consensus

Diagnosis and treatment of primary lymphedema. Consensus Document of the International Union of Phlebology (IUP)-2009..... 454
Lee B., Andrade M., Bergan J., Boccardo F., Campisi C., Damstra R., Flour M., Głowiczki P., J. Laredo, Piller N., Michelini S., Mortimer P., Villavicencio J. L.

Letter to the editor

Internal jugular vein morphology and hemodynamics in patients with multiple sclerosis..... 471

Meetings 473
