

**ICC Meeting on Intermittent Pneumatic Compression
and
Innovative Inelastic Compression
Sept 8, 2013, Boston
Preliminary Programme**

Morning	IPC	9:00AM-1:00PM
N. Morrison	Welcome address from the President of the IUP Conference	
G. Mosti	Welcome and introduction	
Chairmen	A. Comerota, E. Arkans	
A. Comerota	IPC- a broad spectrum	
Evi Kalodiki	Venous indication	
F. Lurie	MRI findings	
A. Comerota	Hematological effects	
N. Labropoulos	Arterial indication	
E. Arkans	Arterial device optimization	
W. Olszewski	Lymphatic indication	
H. Mayrovitz	IPC Use in Lymphedema: Physiological Considerations	
F. Schingale	IPC garment construction for lymphatic indications	
Companies explain the specific features of their instruments and new products		
Lunch Break		1:00-2:00PM
Afternoon	Innovative short stretch material	2:00-4:00 PM
Chairmen	G. Mosti, D. Bender	
H. Partsch	Materials, Pressure and Stiffness	
G. Mosti	Experimental effects	
J. Macdonald	A novel cohesive compression system	
J. Soerensen	Cohesive bandages and IPC in trauma patients	
A.Comerota	Development of Hybrid Compression	
J. Caprini	Self applicable wraps in venous disease	
R. Damstra	Self applicable wraps in lymphoedema	
JP. Benigni, A. Cornu-Thenard, JF Uhl	Interface pressure and stiffness of a reusable multilayer bandage (Cotton and long stretch bandages).	
	Discussion	4:00-5:00PM
