

ICC meeting

Sunday March 5		Room 0.4/0.5
Post-procedure compression Moderators: G Mosti, H Partsch		
14h00	Venous procedures need a strong compression A Obermayer	
14h15	Venous procedures need a light compression or no compression S Chastanet	
14h30	Thigh compression H Partsch	
14h45	Factors which could influence the compression outcomes G Mosti	
15h00	Break	
15h30	Thigh compression by Velcro devices Th Noppeney	
15h45	Compression after lymphedema surgery K van Duinen	
16h00	Which evidences on compression after vein procedures? AG Krasznai	
16h15	The second "compression" must be erased A Sachdeva	

Monday March 6		Room 0.4/0.5
Compression and DVT Moderators: H Partsch, G Mosti		
14h00	Compression and DVT: what we already know H Partsch	
14h15	Critical issues with compression by elastic stockings: donning/compliance/sizing/etc. etc. M Meissner	
14h30	How can we assess compliance? W Chi	
14h45	The SOX trial - weak points E Rabe	

15h00	Break
15h30	Compression after DVT matters A ten Cate
15h45	Requirements to perform a high quality scientific trial M Prins
16h00	How a new study on compression in DVT should be performed C Wittens
16h15	The SOX trial: its implications J Schuren
