ICC Virtual Annual Meeting 2020

PHLEBOLYMPHEDEMA AND COMPRESSION

Speaking time: 15 minutes

I Session: October 2nd, 14:00 CET

Epidemiology of chronic edema
Christine Moffat, UK

Edema assessment, especially by Bio-impedance
Attilio Cavezzi, I

Arm lymphedema: duplex characterization
Sergio Gianesini, I

Venous edema-lymphedema: different treatment due to different pathophysiology?
Kristiana Gordon, UK

Compression in arm lymphedema
Jean Paul Belgrado, B

II Session: October 16, 14:00 CET

Compression in leg lymphedema
Waldemar Olszewski, PL

Compression to prevent arm lymphedema
Kate Ochalek, PL

IPC: protocols in leg and arm lymphedema
Marzana Zalewska, PL

Compression in unusual edema localization
Franz Schingale, D

Night compression? When and how?
Isabel Quéré, F

Legs Matter Campaign and Coalition: changing perspectives and raising awareness (5 minutes)
Alison Hopkins, UK
Ill Session: October 30, 14:00 CET

MLD: still mandatory in lymphedema treatment? Tessa De Vrieze, B

Additional therapeutical procedures Isabel Forner, E

Do short stretch bandage always feature higher stiffness then long stretch bandages? Michael Kisiel, D

Compression in venous edema (bandages, stockings, ACW, IPC?) Mieke Flour, B

Edema compression in DVT and PTS Ariana ten Cate, NL

IV Session: November 13, 14:00 CET

Self-management for edema compression Jean-Patrick Benigni, F

Compression by water Giovanni Mosti & Alberto Caggiati, I

Edema compression and heart failure Tobias Hirsch, D

Compression in lipedema Gyozo Szolnoky, HU

Pneumasox Tim Wentel, NL
